TEN THOUSAND MEN.

That Number of Machinists May Walk Out Of

SOUTHERN PACIFIC'S

Shops on Account of the Refusal of the Master Mechanic at Algiers to Reinstatement Ten Discharged Employees.

New Orleans, Oct. 23.—It is said that as a result of the discharge of ten machinists at the Algiers shops of the Southern Pacific railroad, and because of alleged discrimination of long standing against the organization, 10,000 members of the International Association of Machinists may be called out on strike on that system within a day or two. The men affected are all in what is known as District No. 11, extending from New Orleans to Portland, Ore. Thomas L. Wilson, vice president of the International union, said the national officers will first endeavor to secure the cooperation of Mr. Harriman himself to have the discharged men reinstated, and will also try to negotiate an agreement whereby the arbitrary powers of master mechanics in discharging employees without cause may be abrogated.

ISLE OF PINES.

It Also Suffered Considerable Damage by Recent Hurricane.

Havana, Oct. 23.—Contrary to statements contained in reports received, it now appears the Isle of Pines suffered considerable damage from the storm. Many houses at Nueva Gerona and Santa Fe and in intervening country were blown down. Much damage was done to fruit and crops and the wireless station was wrecked. The steamer Cristobal Colon, a small coasting steamer plying between the Isles of Pines and the mainland, which made a passage during the storm, reached its destination without any loss of life. The garrison of American marines rendered valuable service at the height of the storm in saving lives and property at Nueva Gerona.

AT OWNERS' REQUEST.

Bryan Addresses Employees of Steel Mill at Kokomo.

Kokomo, Ind., Oct. 23.—At the request of the owners of the steel mill here, who are paying a heavy duty on steel billets, Hon. W. J. Bryan, who made several speeches in this state Monday and was scheduled to make ten more, made a stop here and spoke to the employees. Mr. Bryan among other things said: "You have a steel mill that you are proud of. You think you can possibly compete with the steel trust. You may for a while, but the only way you can do it successfully is by making it possible for the Democratic party to make it impossible for a private monopoly to exist in the United States."

ASSUMES OFFICE.

Graft Charges Against Official Bosses Will Be Investigated.

San Francisco, Oct. 23.—Francis J. Heney has formally assumed the office of assistant district attorney of San Francisco. From now on events may follow in rapid succession in the investigation of graft charged against official bosses. Heney will at once place before the grand jury evidence which has been collected and ask for indictments. The Chronicle says prosecutors of municipal graft in this city have decided to ask Mayor Schmitz to return at once from Europe, where he is now visiting on leave of absence.

DASHED INTO POLE.

Car Turned Over on Side and Many Passengers Injured.

Schenectady, N. Y., Oct. 23.—A Schenectady bound Troy trolley car of the Schenectady Railway company failed to take a curve. It dashed into a pole, turned over on one side and injured a score or more of passengers. Two passengers who had arms out of windows lost their limbs and other persons sustained serious injuries. Another Troy car which followed was derailed. It dashed into the other car, but escaped injury.

WHY HE QUIT.

Boyd Says a Clergyman Cannot Preach His Convictions.

St. Louis, Oct. 23.—Rev. William Boyd, who resigned the pastorate of the Second Baptist church in December, 1903, and soon after went abroad, recently returned. Monday night he gave out his reason for having quit the ministry. "It is impossible for a preacher to preach his convictions," he said. "The tendency of modern fashionable churches is wholly to subserve the interests of the rich. That's why I quit the ministry."

Tammany Loyal.

New York, Oct. 23.—Charles F. Murphy says Tammany Hall is loyal to Hearst.

FAIRBANKS' SPEECHES

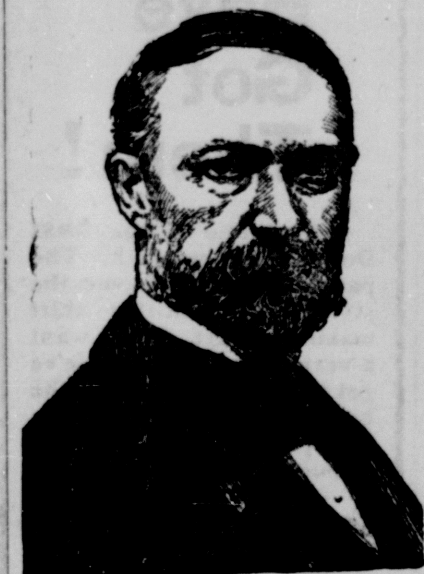

Vice President Makes Number of Addresses Monday

IN OKLAHOMA CITIES

Says There Should Be No Undue Restraint of Capital, but the People Ought to Be Protected Also.

Oklahoma City, Oct. 23.—Vice President Fairbanks spoke to an enthusiastic audience of several thousand persons who assembled here to hear him Monday night, despite cold, disagreeable weather. The vice president was introduced by J. L. Homon, chief of the territorial Republican commission, as "the next president of the United States." Mr. Fairbanks said:

"It is in the highest degree important that in a great and growing state such as Oklahoma there should be no undue restraint put on capital needed in its upbuilding, and it is in the high-

Vice President Fairbanks.

est degree essential that there should be thrown about corporations and any other agencies who enjoy public franchises such reasonable restrictions and wholesome limitations as will protect and safeguard the people in their individual capacity and the community itself from any undue encroachments. The public must be protected and safeguarded against all perversion or prostitution of these necessary instruments and agencies in the development of trade and commerce."

Vice President Fairbanks made fifteen speeches in Oklahoma Monday, the principal ones being at Newkirk, Ponca City, Blackwell, Pond Creek, Enid, Hennessey, Kingfisher and El Reno.

MANY DELEGATES.

Farmers' Co-Operative Business Congress in Session at Topeka.

Topeka, Oct. 23.—The Farmers' Co-operative Business Congress, with a large attendance of delegates from the western and southern states, met here Monday. C. W. Peckham of Haven, Kan., president of the Farmers' Elevator Association of Kansas, speaking of the congress, said: "Our purpose in calling this kind of a meeting is to more closely unite the agricultural interests of the west and south. It is not our intention to organize a trust of the farmers. It has been said that we purpose to increase the price of wheat a stated amount. This we intend to do, but not by organizing and demanding that the consumers pay that for our produce. If we can sell our products to the southern associations at a higher price than we receive from the middle men and can enable the southern producers to hold their product we will work out a plan whereby the price of farm products will naturally work higher."

C. S. Barrett of Atwater, Ga., president of the National Farmers' Union, in an address said: "In the south we have raised the price of cotton to 11 cents. We have built warehouses and hold our cotton until the price is right. We gin our own cotton, and have cotton mills, woolen mills and canneries, all owned by the farmers. The farmers in the north can do the same with their crops."

FOUR INDICTMENTS.

Charge Is Receiving Deposits After Institution Was Insolvent.

Shreveport, Oct. 23.—In the district court indictments were returned against Albert H. Leonard, P. J. Trezevant, C. S. Bauman and R. L. Mayfield, former officials of the defunct Merchants and Farmers' Bank and Trust company of this city, charging them with having received deposits and created debts, knowing the bank to be insolvent and in a failing condition. The bank, which had a capital of \$100,000, suspended operation last April. It had the largest saving deposits of any banking institution in the city. The depositors, after organizing and working for several months, succeeded in having indictments returned against the officials, who are among the oldest and most prominent citizens of Shreveport.

DO NOT BE A BURDEN.

E. J. Jenkins Gives Some Good Advice to Readers of The Eagle.

A weak stomach and its resulting ills are not natural. With proper care and the use of Mi-o-na stomach tablets, the very worst case of indigestion or stomach trouble can be completely cured.

It is a sin to deprive oneself of enjoyment in life and become a burden to others through indigestion.

The backaches, headaches, distress after eating, loss of appetite, gulping up of undigested food and gases are not natural. Mi-o-na stomach tablets used for a few days before meals will so strengthen the digestive organs that you can eat anything you want without fear of distress or resulting sickness.

The directions for taking Mi-o-na emphasize the difference between this remedy and the ordinary medicine that is given for indigestion. Mi-o-na is to be used before meals, strengthening the digestive system for the food which is to be eaten, while the ordinary remedy is taken after meals, and simply digests the food without strengthening the stomach.

E. J. Jenkins has so much faith in the merit of Mi-o-na that he sells it under a guarantee to refund the money, in case it does not cure. A 50-cent box of Mi-o-na will do more real good than a dozen packages of the ordinary remedies sold for indigestion. Then, too, it costs nothing unless it cures.

A PROGRESSIVE MOVE.

E. J. Fountain Will Contribute to Church Work of the Ladies Societies.

As a means of sharing profits with the ladies' church societies E. J. Fountain announces a series of teas to be given at his store in the near future. The first of these will be on Friday, Oct. 26, from 5 to 8 p. m., for the benefit of the Methodist ladies. All are cordially invited. Mr. Fountain furnishes the refreshments, which are served by the ladies, who get all the proceeds. In addition Mr. Fountain will give 5 per cent of the sales from the whole store during these hours to the ladies.

ATTENTION, ELKS!

There will be a regular meeting of the lodge tonight at 8 o'clock. A good attendance is desired. F. C. Oliver, E. R.

Rest the Stomach

Nothing will relieve indigestion that doesn't digest the food, itself, and give the stomach a perfect rest.

You can't reasonably expect that any weak stomach will regain its strength and get well when it is compelled to do the full work that a sound stomach should do.

You wouldn't expect a sick horse to get well when it is compelled to do a full day's work every day of the week.

Your stomach must have rest. But it isn't necessary to starve yourself in order to rest your stomach.

Kodol Dyspepsia Cure is a perfect digestant. It will digest all of the food you eat regardless of the condition of your stomach.

Kodol Dyspepsia Cure

For Indigestion, Dyspepsia, Sour Stomach, Flatulence, Headache, Water Brash, Belching of Gas, Nausea, Gastritis, Heartburn and all troubles arising from indigestion and non-assimilation of the food.

I had dyspepsia in its worst form; was reduced in weight to 118 pounds. After using two and one-half bottles of Kodol, I was completely cured and restored to my usual weight of 145 pounds.

Thirty-five thousand bales of cotton for this season is now the prediction of some, who say they will not be surprised if these figures are exceeded. Any town with receipts like that needs a cotton mill.

Mart has had a Bailey love feast, the dramatic feature of which was the conversion of Editor Robinson of the Waco Times-Herald, his public renunciation of his criticisms and hand shaking with Senator Bailey on the stage.

Something will have to be doing in the way of street improvements before very long. The trouble begins with Main street and extends in all directions. About the only unfavorable comments now heard from visitors to the city are in regard to the need of better streets and sidewalks.

Young man, is your name written in the deed records of Brazos county as the owner of a piece of land? If not you had better hasten to get hold of a good sized slice. The use of fertilizers and improved farming methods are going to make this dirt mighty valuable before you realize it.

The injunction is wonderful for its adaptability to the use of politics. Down in Webb county, where Larado is situated, a restraining order is wanted to prevent the voting of 2200 alleged fraudulent poll tax receipts. The attorney general has brought injunction proceedings in the Travis county district court in connection with the matter.

THE VAGRANT PROBLEM.

The Galveston News, which is conservative, preservative and constructive in policy, has a timely editorial on "The Vagrant, and What to Do with Him," which is given below in part and is worthy of careful attention:

"In time even the people of the south will find it necessary to shake off the leeches, to compel the able-bodied vagrant, white, yellow or black, to earn his clothing and his keep. They will have to do this as a means of public safety. It is only a short step from vagrancy to vice, and another short step from vice to crime. Aside from the natural prejudice against the drone, the natural turn towards self-defensive measures will lead, in due time, to a war of extermination against vagrants who prey upon, defraud and plunder the industrious and provident element of society.

"If all the vagrants in Texas cities and towns were brought right up to the law and marched out to earn their living at road work, they could not complete the improvements, badly needed in this line, in a hundred years. Eliminate the cotton patch, which affords employment for at least twelve months in the year; the piles of wood which need to be sawed and split; the world of half-finished work about the towns and cities, and the endless lines of service on farms, ranches, railroads, in mines, in quarries, mills and factories—cut out these and other opportunities to get a living honestly and honorably and bring the whole matter down to the one task—road work—and there is not in the state a neighborhood in which there are not ample and lasting op-

portunities, all the year around, for the vagrants, right out in the open air.

"To point to the cotton patch, large and promising as the opportunity may appear, is at least to minimize the great importance of this vital question. Its solution may not be equivalent to the solution of the race trouble, but it will mean at least a step towards that end. It is the one way to improve the government and public service of cities and towns. It is a grave law and order work. It is the old way, probably the only way, to secure a system of good roads. It is a means of civic education that is sure to bring direct results of great value and to produce wholesome indirect effects whose value can not be known nor estimated."

THE NEW VISIBLE

At Last a Perfect Visible Typewriter

The One Typewriter That Correctly Solves the Objections That Have Always Heretofore Been Made Against "Front Strike" Machines.

Visible writing has always been considered as desirable by practically all typewriter manufacturers, but the difficulties to be overcome in construction in order to secure durability have discouraged the very large adoption of these machines. The invention of the method of assembling the type bars as it is done in the Fox Visible has, however, made possible the use of a wide pivotal bearing in the type hanger, thus insuring the most perfect alignment at all times and a durability that is equal to that claimed for any "basket type" machine. In building this new model, we have all the advantage of the knowledge that we have gained in building and placing the regular Fox models on the market and we are able to avoid all those experiments found in new machines which are so expensive to the purchaser.

Here is a Short Description.

THE TYPE HANGER—The hanger has a pivot bearing 7-16 of an inch wide. This allows the use of a heavy type bar, providing an adjustable pivot bearing which takes up wear as it occurs, thereby giving a permanent alignment that is impossible to secure with a narrow bearing without adjustment, and avoiding the trouble caused where "forced alignment" is necessary. This is the feature that has heretofore been considered as being impossible to secure in a visible writing typewriter. It is found only in the Fox and places the Fox Visible in a class by itself.

TWO COLOR RIBBON—The ribbon movement on this machine is simply perfection. It reverses and oscillates automatically, requiring no attention from the operator from the time it is put on until worn out. When a two color ribbon is used, by simply touching a button on the keyboard the second color is secured instantly without raising the hand or even looking.

THE INTERCHANGEABLE CARRIAGE—The carriage is so constructed that it can be quickly removed and a carriage of different length substituted. One

machine can be purchased with different sizes of carriages thereby effecting a great saving over the ordinary method of buying a long carriage machine complete. The carriage is ball bearing and runs with a tension of only 1 lb.

PERFECT VISIBLE WRITING—The entire line is visible all the time.

THE KEY TENSION—The force required on the part of the operator to print a letter is only 2 1/2 ounces. This is from 25 to 50 per cent. less than any other. It is a vital thing both from the operator's standpoint of less fatigue and the owner's of greater durability.

THE LINE LOCK—When the carriage reaches the end of a line, the keys lock and nothing more can be written until the release button is used or the carriage returned to begin a new line.

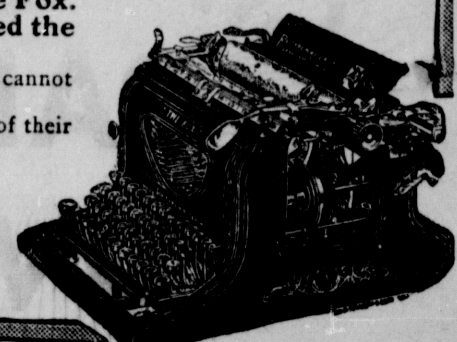

ALUMINUM KEY LEVERS—Key levers are made of aluminum. It is more expensive than steel or wood, but it is very much more desirable.

TABULATOR—The Fox ten stop decimal tabulator is attached when ordered, at slight additional expense. It is the only decimal tabulator in use on a visible typewriter.

Every feature on this machine has been tried out and demonstrated as successful on the Regular Models of the Fox. Unprejudiced experts have without hesitation pronounced the machine a marvel.

Ask your nearest typewriter dealer to show you this machine. If he cannot we will make it easy for you.

The regular models of the Fox are still the most perfect machines of their kind and their manufacture will be continued as before.

Vice President Enthusiastically Wel-

Tulsa, I. T., Oct. 23.—Notwithstand-
ing the fact that it was raining, Vice
President Fairbanks was enthusiastically
welcomed on his arrival here by a
reception committee of leading citi-

The Hoosier club, a local organiza-
tion of 250 members, originally from
Indiana, met the vice president at the
train and escorted him to the Grand
Opeha House, the street speech being
abandoned on account of the inclemen-
cy of the weather. Mr. Fairbanks was in-
troduced by State Committeeman My-
ron Boyle, and spoke for one hour,
confining himself mostly to local is-
sues and matters pertaining to the new
state of Oklahoma. He said: "It is
absolutely necessary to the welfare
of the new state that no undue re-
straint be put upon the capital need-
ed in the rebuilding, but it is also ex-
pedient that such reasonable restric-
tions be placed upon capital as is nec-
essary to protect the people in their
individual capacity and the community
itself from any undue encroachments."
The general trend of Mr. Fairbanks
speech was, let well enough alone.

NEGROES UNRULY.

Endeavor to Prevent Presentation of
"The Clansman."

Philadelphia, Oct. 23.—Under most
unusual conditions "The Clansman"
was presented here Monday night at
the Walnut Street theater. The negro
clergy of the city had made a formal
protest to Mayor Weaver against the
production, claiming that "lynchings
had been encouraged by the play."
The mayor refused to take any action.

About a half hour before the the-
ater opened, Ninth and Walnut streets,
where the playhouse is located, were
packed with negroes. Director of Pub-
lic Safety McKinney, who had hasten-
ed to the scene, begged the negroes
to disperse the mob. A riot call was
sent in, and patrol wagons brought
half a hundred policemen to the the-
ater.

The negro ministers surrounded Di-
rector McKinney and demanded that he
stop the play.

The director delivered a brief speech
asking the crowd to disperse, and say-
ing that he would endeavor to have the
presentation discontinued after Mon-
day night. This seemed to have a
soothing effect, and the crowd slowly
scattered.

Early in the evening a negro man
attempted to create a disturbance in
the theater. He was arrested, but the
police had considerable difficulty in
rescuing him from the crowd in the
gallery.

New York, Oct. 23.—A Herald cable

whose alleged action caused the as-
signment of the firm, says Silveira
rented a house in a fashionable street
and was received splendidly. His
friends were unconscious of the al-
leged defalcation. According to the
dispatch, Silveira comes to Venezuela
temporarily to restore his health,
which is broken since the automobile
accident. He declares he left his firm
solvent, with \$1,500,000 assets to cover
\$700,000 owed to J. M. Ceballos & Co.
He feigns surprise at the news of the
failure and the charges against him-
self.

DECISION UPHELD.

Effort of Sullivan to Enjoin Railroad
Not Sustained by Supreme Court.

Washington, Oct. 23.—The supreme
court of the United States has sustain-
ed the decision of the circuit court of
the Southern district of Texas in re-
fusing to take jurisdiction in the case
of Sullivan vs. the St. Louis, Browns-
ville and Mexico Railway company.
The suit was an effort on Sullivan's
part to enjoin the railroad company
from removing its tracks from his
hands in Bexar county, Texas, which
action, he claims, was in violation of
the Texas railroad laws.

TWENTY INJURED.

WORK OR LEAVE.

White People Give Idle Negroes Notice
to Do One or the Other.

Jonesville, S. C., Oct. 23.—A procla-
mation was posted by white citizens
warning every idle, indolent negro in
the community to go to work at once
or leave the community, else drastic
measures will be taken.

The proclamation is the outgrowth
of threats made against prominent
farmers, by several negroes, one of
whom was captured Monday night and
severely whipped. He broke away
from his captors and created a panic
at a negro church by dashing into the
building while services were in progress.

Independence League Sustained.

New York, Oct. 23.—The board of
elections sustained the contention of
the Independence league that it has
the exclusive right to the use of that
name and to the emblem—a pair of
scales. The matter will be carried to
the supreme court by the protestants.

Opened Steady.

New York, Oct. 23.—Cotton market
opened steady at decline of 1 point
to advance of 1 point in response to
cables.
